

CONSUL CABLES JAPAN TO ARREST MURDERER

STRONG EFFORTS TO BE MADE BY HIGH SHERIFF HENRY TO SECURE EXTRADITION OF UICHI CHARGED WITH A BRUTAL MURDER IN HAWAII—ESCAPED ON SIBERIA AND MAY BE CAUGHT TODAY IN YOKOHAMA.

Uichi the alleged suspected murderer of Aide his wife, is to be extradited if possible from Japan. Steps were taken this morning by High Sheriff Henry to effect the capture of the man who is thought to have committed a shocking murder at Honolulu, Hawaii on the night of December 21 and subsequently made his way to Honolulu and escaped by the S. S. Siberia to Japan.

As soon as the High Sheriff received the details of the murder from Deputy Sheriff J. K. Nahala of Hawaii, the High Sheriff communicated with the Japanese consul general and also Governor Carter. Governor Carter was heartily in favor of taking steps to extradite the alleged murderer and decided to communicate with the departments of Justice and State at Washington so that the murderer could be extradited.

Japanese consul agreed to cable to the authorities in Yokohama to have the murderer apprehended the instant the Siberia arrived at Yokohama. The man if caught will be held two months.

This period will be more than sufficient to enable the authorities to go from Honolulu to Japan and secure the prisoner. The Siberia left Honolulu December 23. She will arrive at Yokohama January 4 which will bring her into that place today. Whether the cablegram from the local Japanese consulate will arrive in time to enable the Japanese officials to apprehend Uichi is uncertain. If it does it will be very close connection. The probabilities are that if the Japanese ever gets ashore and away from Yokohama, he will never be apprehended.

Should he be apprehended however, and the extradition papers fixed up at Washington in time High Sheriff Henry or some other officer will take the S. S. China leaving here January 16 for the Orient and bring the man back. If Uichi be extradited it will be the second case in the history of these islands since annexation that a Japanese has ever been extradited. Adachi was the first man to be extradited and Uichi if caught will be the second. Uichi will be the first to be brought to stand trial for murder.

H. C. & S. ON THE DIVIDEND LIST

THE BIG MAUI PLANTATION BECOMES A DIVIDEND PAYER FOR THE FIRST TIME IN YEARS.

The list of dividends payable December 31 as announced today on the Stock Exchange list is a long one and an important one. One of its most striking features is the fact that Hawaiian Commercial & Sugar Company is on the list for the first time for a good many years, how many, nobody seems to remember. Hawaiian Commercial is now to pay dividends of one-half of one per cent a month, or six per cent for the year. This means the payment of \$600,000 in dividends during the year, \$50,000 a month. Ewa pays the one and a half per cent voted some time ago. It is not believed that the decision of the directors made some time ago to pay two per cent quarterly during the year will stand. It is believed that this will be reconsidered and a decision to pay one per cent a month will be arrived at.

The entire list of dividends is as follows: C. Brewer & Co., 2 per cent; Ewa, 1 1/2 per cent; Honouliuli 2 per cent; Honokaa 1/2 per cent; Hukou, 1 per cent; Paha, 1 per cent; Pioneer Mill, 1 per cent; Wailuku, 1 1/2 per cent; Waimanalo 1 per cent; Onomea S. F. Jan., 5, 1 per cent; H. C. & S. Co., S. F. Jan., 5, 1 per cent; Hawaiian Electric Co., 1/2 per cent; W. S. S. Co., quarterly, 2 per cent; Inter-Island (mo), 1 per cent; Rapid Transit pref., semi-annual, 3 per cent; Rapid Transit common, quarterly, 1 per cent.

SIGNAL CORPS AT PRACTICE.
The Signal Corps of the 1st Regiment, N. G. H., was out for practice yesterday. One post was established at Pearl City and another at Hahione, seven miles away. They signalled with the heliograph during the day time and with lamps after the night fell, doing some excellent work. A third post was established on Punchbowl but something went wrong with the sun and the messengers would not come through. The signallers were all right.

MOOHEAU HALL.
Mooheau Hall was dedicated at Hilo yesterday. Admiral George Beckley, the donor of the hall, was introduced by M. V. Holmes of the Board of Trade. Admiral Beckley read his presentation address. The hall was accepted on the part of Hilo by C. M. LeBlonde. Beckley was presented with an illuminated address from the Hilo Board of Trade. There was a luncheon and an auto parade following the exercises at the hall.

Russian Officers On Parole

GENEROUS TERMS OF SURRENDER

(Associated Press Cable to The Star).

TOKIO, January 3.—The terms of the surrender granted to the Russians at Port Arthur provided that the Russian officers, both civil and military, should march out, the latter wearing their side arms, and be granted liberty under parole.

Twenty-thousand non-commissioned officers and privates shall be held as prisoners of war. The fortress of Port Arthur was formally transferred today to the Japanese forces. The prisoners will march out tomorrow.

OESSEL MAKES HIS REPORT

ST. PETERSBURG, January 3.—General Stoessel reports that he had only 10,000 men under arms at the time of the surrender of the Port Arthur garrison, and that there were 14,000 sick men in the hospital. Scurvy raged among the sick.

OPINIONS ON PEACE PROSPECTS

TOKIO, January 3.—It is expected that as the result of the surrender of the garrison of Port Arthur there will be a renewal of peace efforts.

ST. PETERSBURG, January 3.—Peace with Japan is not favored here.

PATTERSON FINDS UNCHARTED ROCK

MENACE TO NAVIGATION DISCOVERED IN LA PELOUSE BAY ON THE COAST OF MAUI.

The survey ship Patterson has discovered an uncharted rock rising to within two fathoms of the surface in La Pelouse Bay on the coast of Maui. The Patterson, which returned just before Christmas from several weeks spent in the survey of Kahoolawe, will make some repairs to her rudder, and then return to the work which is now nearly completed. The work which she is doing is the complete survey of Kahoolawe, which is the one island of the group which had not been previously entirely surveyed. The computations have not all been made yet, so it is not known how much the area of the island from this complete survey will differ from the area as it has been previously computed from the incomplete surveys made. It is not thought the difference will be very much, however. The height of the island had been very definitely determined before the Patterson undertook her present work.

A good deal of sounding has been done around Kahoolawe, especially to the southward to determine whether the shoal that was supposed to exist there, really does exist.

The discovery of the uncharted rock in La Pelouse Bay is considered rather curious, inasmuch as it is in waters that in the course of more than a hundred years have been much frequented. La Pelouse was the name of a French exploring vessel which came into this region seven years after Captain Cook discovered the Islands. Necker Island and other islands to the northwest were discovered by this expedition.

Captain Pratt, who is in command of the Patterson, has been quite ill and confined to his cabin, though he has been able to take a short ride each day for two or three days past.

AN UNOFFICIAL BAND.
Although the Hawaiian band is to take part in the Japanese parade in honor of the fall of Port Arthur this evening, it will not do so in its official capacity. It will be incognito, so to speak. As the band is an official concern, it would never do for it to turn out in a ghost over the defeat of a friendly power, but there is nothing to prevent individual members of the band meeting and playing as much as they want to on their own behalf.

KONA ENJOYING A LONG CELEBRATION

THREE DAYS GIVEN UP TO LUAUS AND A GENERALLY GOOD TIME —KAU WENT DRY ON HOLIDAYS

The people in the Kona district have been on a grand New Year's celebration Saturday, Sunday and Monday and they were too busy to do anything but eat pig and have a general good time. This is the reason that the steamer Maunaloa returned this morning from her run to Hawaii ports with a very light cargo. Nobody seemed disposed to work very hard at Kailua yesterday. It has been a continual round of hospitality. In Kau the people were not so lively however. The Governor's recent order regarding the issuance of liquor licenses resulted in the Kau Wine Company shutting down business, so New Years was rather a tame affair in the Kau district. The steamer Mauna Loa disturbed the slumbers of the people in Kau on New Year's eve by tooting her siren. Some of the people ashore thought the volcano had broken forth again with a wild scream.

There have been light showers over Hawaii but no good sized rains for over a week past. The island is now in need of rain. Cane planting in Kau has had to be practically suspended for lack of water. Honuapo plantation has started grinding on the new crop.

Outside of Keauhou the officers of the steamer saw an enormous devil fish lying on top of the water. The fish was thrashing the water with its big tentacles, the arms going eight and ten feet into the air. Mate Williamson a new officer on the vessel was the man to first see the wonder.

Judge Matthewman of Kona came down on the vessel to Honolulu.

TOM MASON DESTRUCTIVE.

Tom Mason got on a jag today and began to toss the furniture out of the windows of his residence on Punchbowl street. The police were notified and arrested him. It took the combined efforts of about six big policemen to handle him as he is a powerful man and resisted being searched.
